

Tiziano Tuccinardi, Short CV

Tiziano Tuccinardi is Full Professor of Medicinal Chemistry at the Department of Pharmacy of the University of Pisa. Since 2016 he is also Adjunct Associate Professor at the Department of Biology, Temple University's College of Science and Technology, Philadelphia, PA, USA. He has published more than 200 papers with more than 6000 citations, eight patents and he is a scientific advisory board member of the Bio Future Medicine (BFM) start-up. He is director of the "Pharmaceutical Chemistry and Technology" MD (long cycle) programme, director of the PhD program "Science of Drug and Bioactive Substances" and director of the "Computer-Aided Drug Design" International Summer School (I-IX CADDISS edition) of the University of Pisa. He is Editor in Chief of the Mini-Reviews in Medicinal Chemistry journal, and his research interests include drug and lead discovery, with a focus on computer-assisted approaches and medicinal chemistry, including synthesis of small molecules, virtual and biomolecular screening and software development.
