

Short CV

Juan Pedro Bolaños is Professor of Biochemistry and Molecular Biology at the University of Salamanca (Spain). He leads a research group that is interested in understanding the molecular mechanisms whereby the astrocytes handle the metabolic energy for neuronal function and organismal behavior. He has performed several research stays in the UK (Oxford University and University College London) and France (University of Bordeaux). He is Senior Editor of the Journal of Neurochemistry and member of the Editorial Board of several journals. Amongst other commitments, he was President of the European Society for Neurochemistry, coordinator of the Neuroscience Area of the Spanish National Research Agency, Research Vice-dean of the Faculty of Pharmacy and external examiner of the Annual Court of Examiners of the Neuroscience Grade at Trinity College Dublin (Ireland).
